About Certefy

Our mission is to bridge the gap between education and employment, by providing world-class courses that are relevant, practical, and job-oriented. We aim to help our students & working professionals not only learn, but also apply their skills in real-world settings, and to provide them with the guidance and support they need to land their dream jobs.

Future-Proof Your Skills with Certefy

Comprehensive curriculum

Gain a deep understanding of data analytics using Power BI and Tableau.

Hands-on Experiences

Apply your learning through practical exercises and real-world projects.

Industry Experts

Learn from seasoned professionals in the field of data analytics.

Practical Application

Immediately apply your skills to real-world scenarios.

Data Visualization Expertise

Master the art of creating visually compelling dashboards & reports.

Career Advancement

Enhance your employability and open doors to exciting opportunities.

Where knowledge meets recognition!

Designed For You & For You Future

We help you learn in-demand skills,
get certified, and land your dream job.

1
Mentorship
By Tech Experts

Transformative
One-on-One mentorship
program led by industry
experts.

2
Hands
On Learning

Exciting live projects &
internships, that make
you stand out.

3
Guaranteed
Job Opportunities

Unbeatable 100%
internship
placement rate.

India's 1ST Ever 100% Paid Internship Program!

Paid Internship: Earn While You Learn

Get hands-on experience with a mandatory paid internship for 3 months. Gain real-world industry exposure & enhance your skills.

Job Guaranteed Program: Launch Your Career

100% job guarantee for freshers (2022 & 2023 pass-outs), Unlock exciting career opportunities in the field of data analytics.

Placement Assistance: Your Path to Success

100% placement assistance for experienced professionals & domain switchers, Benefit from our extensive network and industry connections.

Comprehensive Curriculum: Master the Tools

Learn the in's & out's of Power BI and Tableau, Develop a strong foundation in data modeling, visualization, & advanced analytics techniques.

Lucrative Career Path: Stand Out from the Crowd

Excel in the high-demand field of data analytics, Secure well-paying positions as a data analyst or data scientist.

Accelerate Your Career Growth with certefy

1 Fresh Graduates

Kickstart Your Career in Data Analytics, Perfect for fresh graduates from any domain looking to enter the field of data analytics

2 Working Professionals

Boost Your Career Potential, Ideal for software engineers and IT professionals seeking to upskill in data analytics.

3 Career Switch

Transition to the World of Data Analytics, Suitable for professionals looking to switch domains and explore a career in data analytics.

4 Aspiring Data Scientists

Master Data Visualization and Analysis, Designed for individuals aspiring to become data scientists.
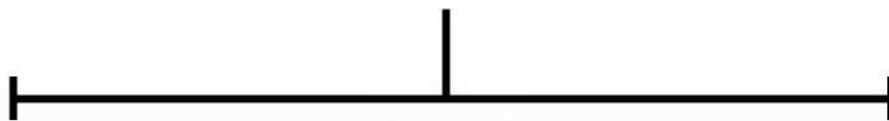

Unlock the Power of Cloud Agility with Our Cutting-Edge AWS DevOps Training Program!

Duration	:	4 Months
Method	:	Online & Offline
Batch Size	:	25 Students
Internship	:	3 Months
Guaranteed Stipend	:	8k For All

Learn legendary tools that 96% of enterprises use across the world.

aws

AWS CodeDeploy

What you will Learn from this course

Module 1 : Introduction to AWS and Cloud Computing

- Cloud computing basics and AWS overview.
- Benefits and advantages of using AWS.
- Introduction to key AWS services and terminology.

Module 2 : AWS Fundamentals and Core Services

- Overview of core AWS services (e.g., EC2, S3, RDS).
- Understanding AWS Global Infrastructure.
- Introduction to AWS management console and CLI.

Module 3 : Virtualization and Elasticity in AWS

- Exploring virtualization concepts in AWS.
- Elasticity and scalability using AWS Auto Scaling.
- High availability and fault tolerance with AWS.

Module 4 : Infrastructure as Code with AWS CloudFormation

- Creating and managing infrastructure using CloudFormation.
- Benefits of infrastructure as code (IaC).
- Automating resource provisioning with CloudFormation templates.

Module 5 : Continuous Integration & Continuous Deployment (CI/CD)

- Developing effective data storytelling skills.
- Presenting analytical findings in a compelling and impactful manner.
- Communicating insights to different stakeholders.

Module 6 : Configuration Management with AWS Systems Manager and AWS OpsWorks

- Managing system configurations with AWS Systems Manager.
- Automating infrastructure deployment with AWS OpsWorks.
- Configuration drift remediation and compliance enforcement.

Module 7 : Containerization with AWS Elastic Container Service (ECS) and AWS Fargate

- Container deployment and orchestration using ECS.
- Serverless container management with AWS Fargate.
- Scalable and highly available containerized applications.

What you will Learn from this course

Module 8 : Serverless Computing with AWS Lambda

- Introduction to serverless architecture and AWS Lambda.
- Event-driven computing with Lambda functions.
- Serverless application development and deployment.

Module 9 : Monitoring and Logging with AWS CloudWatch

- Monitoring AWS resources and applications with CloudWatch.
- Setting up custom metrics and alarms.
- Centralized log collection and analysis with CloudWatch Logs.

Module 10 : Scalability and High Availability in AWS

- Designing scalable and highly available architectures.
- Load balancing and auto scaling in AWS.
- Multi-region and cross-region redundancy strategies.

Module 11 : Security and Compliance in AWS

- Robust security measures and best practices in AWS.
- Compliance frameworks and regulations for AWS environments.
- Secure access control and identity management with AWS IAM.

Module 12 : AWS Identity and Access Management (IAM)

- Managing user access and permissions with IAM.
- Role-based access control (RBAC) in AWS.
- Implementing fine-grained access policies with IAM.

Module 13 : Networking in AWS

- Virtual private cloud (VPC) and subnet configuration.
- Networking concepts and components in AWS.
- VPC peering and connectivity options.

Module 14 : Database Services in AWS

- Introduction to AWS database services (e.g., RDS, DynamoDB).
- Database deployment and management in AWS.
- Scaling and high availability strategies for databases.

What you will Learn from this course

Module 15 : DevOps Best Practices

- Agile development methodologies and DevOps principles.
- Collaboration and communication in DevOps.
- Continuous improvement and feedback loops in DevOps.

Module 16 : Automation and Orchestration with AWS Step Functions

- Building serverless workflows with Step Functions.
- Coordinating distributed applications using Step Functions.
- Error handling and retry mechanisms in Step Functions.

Module 17 : Infrastructure Monitoring and Performance Optimization

- Performance monitoring and optimization strategies in AWS.
- Analyzing and troubleshooting application performance.
- AWS CloudFormation StackSets for centralized monitoring.

Module 18 : AWS Cost Optimization and Billing

- Cost optimization best practices in AWS.
- Analyzing and reducing AWS costs.
- Understanding AWS billing and pricing models.

Module 19 : DevOps Tools and Ecosystem

- Overview of popular DevOps tools and services.
- Integration and automation with AWS DevOps tools.
- Enhancing productivity with DevOps ecosystem.

Module 20 : Capstone Project and Case Studies

- Applying learned concepts to real-world scenarios.
- Solving complex problems using AWS services.
- Hands-on project experience with AWS architecture.
